Concerned Citizens Fighting to Preserve The Craig Community Covenant & Our Area's Quality of Life

I/we the undersigned support the continued progress and growth occurring in the area surrounding the Craig Municipal Airport. I/we oppose City Council Bill # 2007-1240, the proposal to change the city's Comprehensive Land Use Plan in order to allow the Jacksonville Aviation Authority to extend the runway at Craig Airport because of the detrimental impacts such a change would have on the area's economic development and residents' quality of life.
